

Town of Jefferson
Road Closure and Use Restrictions – Popp Road
August 29, 2016 until approximately October 15, 2016

Due to an erosion control project along Popp Road and the Crawfish River, there will be reduced lane usage on Popp Road for the duration of the project. Through traffic will be restricted to one lane during the day with flaggers present to control traffic. Although it is not anticipated, detours will be in place if the project work demands it. It is anticipated the road will be open in both directions during non-work and evening hours. The work will be performed in stages, so road use restrictions will be sporadic.
